Posturepedic
EXQUISITE™

The journey behind the dream

A dedicated team of Sealy engineers and designers are continually innovating to achieve the highest standard of sleep for all New Zealanders. Bringing together leading support system technologies with stunning fabrics and on-trend designs to deliver a bed that provides a restful sleep by night and an elegant statement piece by day.

Exclusively made in New Zealand, Sealy Posturepedic Exquisite features our unique ReST^{II} coil – Responsive Support Technology – designed to cradle each part of the body and provide deep-down support.

Drawing on a combination of traditional and contemporary design inspirations, the Sealy Posturepedic Exquisite collection redefines luxury.

Experience one
of life's luxuries

Great design is made to last

Style, comfort, craftsmanship & longevity

DESIGN ReST™ is Sealy's most advanced Titanium alloy support system. With three layers of staged support it cradles every part of the body to provide deep-down support. The coil columns are aligned in an alternating pattern across the mattress to reduce surface motion to help deliver a perfect night's sleep.

FUNCTION The innovative Unicased®XT edge support provides a full perimeter sleeping surface and comfortable yet supportive seating edge. Keys are locked into the edges of the spring unit to increase stability and decrease lateral movement for an undisturbed sleep. A unique base plank assists with extending the life of the mattress.

LUXURY Soft-touch fabrics and natural fibre layers create an indulgent quilt surface for exceptional comfort. In the centre-third of the mattress is the ComfortCore® Plus, a gel infused visco-elastic layer, providing conformance and pressure relief to the lower back. Our Smartex® fabric treatment regulates temperature for a more comfortable sleeping environment.

FORM Sealy Posturepedic Exquisite is a beautiful sleep system that features clean lines and considered design. LiftRight® handles make dressing the bed easier. The upholstered designer bed base features Duraflex® Titanium alloy modules to improve the performance and comfort life of your mattress. StayTight, a rubberised material, helps keep sheets in place.

ENGINEERING Every Sealy Posturepedic® is handcrafted in New Zealand using the finest locally sourced materials and leading-edge technology. Form and function combine to create a beautiful, advanced sleep system.

EXQUISITE™

A woman with long, dark, wavy hair is sitting on a bed in a bright, airy room. She is wearing a white, long-sleeved top and light-colored pants. She is looking down and to the right with a slight smile. The room has large windows with dark frames, offering a view of a lush green landscape. The lighting is soft and natural, coming from the windows. The overall mood is peaceful and serene.

“My home is my sanctuary. Airy, light and full of design pieces I cherish. I appreciate furniture that is well-engineered. I especially love my Sealy Posturepedic Exquisite bed - it provides a sleep haven - the ultimate in comfort, support and style. I escape to the luxury of deep sleep every night with Sealy Posturepedic.”

Sizing Information

All sizes are nominal. Dimensions are width by length in millimetres.

Our 10 Year Guarantee

Your Sealy Posturepedic comes with a 10 year guarantee, so you can rest easy.

NATA Accreditation

The Sealy Research and Development Centre tests every component to stringent quality standards. Beds are required to perform to the highest durability and performance benchmarks. Sealy's R&D centre is NATA accredited to comply with New Zealand standards.

Working with the Orthopaedic Advisory Board

To ensure you are getting the best support available, Sealy Posturepedic is designed with the help of the Orthopaedic Advisory Board (OAB). The OAB is a panel of eminent orthopaedic surgeons, clinicians and sleep experts assisting Sealy in developing better sleep systems.

Proudly New Zealand Made

The Sealy Posturepedic you choose is made to order in our Auckland factory. In a world of mass manufacture, we still handcraft our beds, ensuring a level of quality that sets the standard in the bedding industry.

Master Bedding Maker

Sealy New Zealand is proud to be recognised as a Master Bedding Maker, an accreditation acknowledging our commitment to training and recognising the expertise of our team - you can be assured you are purchasing a premium, quality, locally-made product.

Environmental Responsibility

Sealy recognises the importance of environmental sustainability and we take our corporate responsibility seriously. Our goal is to reach an acceptable balance between sustainability and product quality, performance and durability, based upon the practical application of the most advanced technologies available. Over 90% of materials in a Sealy Posturepedic bed are recyclable, including steel, timber and foam. Sealy uses sustainable plantation timber for foundations. Local manufacturing ensures the carbon footprint of each bed is minimised through fewer transport kilometres.
